

§ 3.62 Disclosure requirements.

(a) A national bank or Federal savings association described in § 3.61 must provide timely public disclosures each calendar quarter of the information in the applicable tables in § 3.63. If a significant change occurs, such that the most recent reported amounts are no longer reflective of the national bank's or Federal savings association's capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be disclosed as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter (for example, a general summary of the national bank's or Federal savings association's risk management objectives and policies, reporting system, and definitions) may be disclosed annually after the end of the fourth calendar quarter, provided that any significant changes are disclosed in the interim. The national bank's or Federal savings association's management may provide all of the disclosures required by §§ 3.61 through 3.63 in one place on the national bank's or Federal savings association's public Web site or may provide the disclosures in more than one public financial report or other regulatory reports, provided that the national bank or Federal savings association publicly provides a summary table specifically indicating the location(s) of all such disclosures.

(b) A national bank or Federal savings association described in § 3.61 must have a formal disclosure policy approved by the board of directors that addresses its approach for determining the disclosures it makes. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this subpart, and must ensure that appropriate review of the disclosures takes place. One or more senior officers of the national bank or Federal savings association must attest that the disclosures meet the requirements of this subpart.

(c) If a national bank or Federal savings association described in § 3.61 concludes that specific commercial or financial information that it would otherwise be required to disclose under this section would be exempt from disclosure by the OCC under the Freedom of Information Act (5 U.S.C. 552), then the national bank or Federal savings association is not required to disclose that specific information pursuant to this section, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

§ 3.63 Disclosures by national banks or Federal savings associations described in § 3.61.

(a) Except as provided in § 3.62, a national bank or Federal savings association described in § 3.61 must make the disclosures described in Tables 1 through 10 of this section. The national bank or Federal savings association must make these disclosures publicly available for each of the last three years (that is, twelve quarters) or such shorter period beginning on January 1, 2015.

(b) A national bank or Federal savings association must publicly disclose each quarter the following:

(1) Common equity tier 1 capital, additional tier 1 capital, tier 2 capital, tier 1 and total capital ratios, including the regulatory capital elements and all the regulatory adjustments and deductions needed to calculate the numerator of such ratios;

(2) Total risk-weighted assets, including the different regulatory adjustments and deductions needed to calculate total risk-weighted assets;

(3) Regulatory capital ratios during any transition periods, including a description of all the regulatory capital elements and all regulatory adjustments and deductions needed to calculate the numerator and denominator of each capital ratio during any transition period; and

(4) A reconciliation of regulatory capital elements as they relate to its balance sheet in any audited consolidated financial statements.

§ 3.63

12 CFR Ch. I (1–14 Edition)

TABLE 1 TO § 3.63—SCOPE OF APPLICATION

Qualitative Disclosures	(a)	The name of the top corporate entity in the group to which subpart D of this part applies.
	(b)	A brief description of the differences in the basis for consolidating entities ¹ for accounting and regulatory purposes, with a description of those entities: (1) That are fully consolidated; (2) That are deconsolidated and deducted from total capital; (3) For which the total capital requirement is deducted; and (4) That are neither consolidated nor deducted (for example, where the investment in the entity is assigned a risk weight in accordance with this subpart).
	(c)	Any restrictions, or other major impediments, on transfer of funds or total capital within the group.
	(d)	The aggregate amount of surplus capital of insurance subsidiaries included in the total capital of the consolidated group.
	(e)	The aggregate amount by which actual total capital is less than the minimum total capital requirement in all subsidiaries, with total capital requirements and the name(s) of the subsidiaries with such deficiencies.

¹ Entities include securities, insurance and other financial subsidiaries, commercial subsidiaries (where permitted), and significant minority equity investments in insurance, financial and commercial entities.

TABLE 2 TO § 3.63—CAPITAL STRUCTURE

Qualitative Disclosures	(a)	Summary information on the terms and conditions of the main features of all regulatory capital instruments.
Quantitative Disclosures	(b)	The amount of common equity tier 1 capital, with separate disclosure of: (1) Common stock and related surplus; (2) Retained earnings; (3) Common equity minority interest; (4) AOCI; and (5) Regulatory adjustments and deductions made to common equity tier 1 capital.
	(c)	The amount of tier 1 capital, with separate disclosure of: (1) Additional tier 1 capital elements, including additional tier 1 capital instruments and tier 1 minority interest not included in common equity tier 1 capital; and (2) Regulatory adjustments and deductions made to tier 1 capital.
	(d)	The amount of total capital, with separate disclosure of: (1) Tier 2 capital elements, including tier 2 capital instruments and total capital minority interest not included in tier 1 capital; and (2) Regulatory adjustments and deductions made to total capital.

TABLE 3 TO § 3.63—CAPITAL ADEQUACY

Qualitative disclosures	(a)	A summary discussion of the national bank's or Federal savings association's approach to assessing the adequacy of its capital to support current and future activities.
Quantitative disclosures	(b)	Risk-weighted assets for: (1) Exposures to sovereign entities; (2) Exposures to certain supranational entities and MDBs; (3) Exposures to depository institutions, foreign banks, and credit unions; (4) Exposures to PSEs; (5) Corporate exposures; (6) Residential mortgage exposures; (7) Statutory multifamily mortgages and pre-sold construction loans; (8) HVCRE loans; (9) Past due loans; (10) Other assets; (11) Cleared transactions; (12) Default fund contributions; (13) Unsettled transactions; (14) Securitization exposures; and (15) Equity exposures.
	(c)	Standardized market risk-weighted assets as calculated under subpart F of this part.
	(d)	Common equity tier 1, tier 1 and total risk-based capital ratios: (1) For the top consolidated group; and (2) For each depository institution subsidiary.
	(e)	Total standardized risk-weighted assets.

TABLE 4 TO § 3.63—CAPITAL CONSERVATION BUFFER

Quantitative Disclosures	(a)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose the capital conservation buffer as described under § 3.11.
	(b)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose the eligible retained income of the national bank or Federal savings association, as described under § 3.11.
	(c)	At least quarterly, the national bank or Federal savings association must calculate and publicly disclose any limitations it has on distributions and discretionary bonus payments resulting from the capital conservation buffer framework described under § 3.11, including the maximum payout amount for the quarter.

(c) *General qualitative disclosure requirement.* For each separate risk area described in Tables 5 through 10, the national bank or Federal savings association must describe its risk management objectives and policies, including: Strategies and processes; the structure and organization of the relevant risk

management function; the scope and nature of risk reporting and/or measurement systems; policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/mitigants.

TABLE 5 TO § 3.63¹—CREDIT RISK: GENERAL DISCLOSURES

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to credit risk (excluding counterparty credit risk disclosed in accordance with Table 6), including the: (1) Policy for determining past due or delinquency status; (2) Policy for placing loans on nonaccrual; (3) Policy for returning loans to accrual status; (4) Definition of and policy for identifying impaired loans (for financial accounting purposes); (5) Description of the methodology that the national bank or Federal savings association uses to estimate its allowance for loan and lease losses, including statistical methods used where applicable; (6) Policy for charging-off uncollectible amounts; and (7) Discussion of the national bank's or Federal savings association's credit risk management policy.
	(b)	Total credit risk exposures and average credit risk exposures, after accounting offsets in accordance with GAAP, without taking into account the effects of credit risk mitigation techniques (for example, collateral and netting not permitted under GAAP), over the period categorized by major types of credit exposure. For example, national banks or Federal savings associations could use categories similar to that used for financial statement purposes. Such categories might include, for instance (1) Loans, off-balance sheet commitments, and other non-derivative off-balance sheet exposures; (2) Debt securities; and (3) OTC derivatives. ²
Quantitative Disclosures	(c)	Geographic distribution of exposures, categorized in significant areas by major types of credit exposure. ³
	(d)	Industry or counterparty type distribution of exposures, categorized by major types of credit exposure.
	(e)	By major industry or counterparty type: (1) Amount of impaired loans for which there was a related allowance under GAAP; (2) Amount of impaired loans for which there was no related allowance under GAAP; (3) Amount of loans past due 90 days and on nonaccrual; (4) Amount of loans past due 90 days and still accruing; ⁴ (5) The balance in the allowance for loan and lease losses at the end of each period, disaggregated on the basis of the national bank's or Federal savings association's impairment method. To disaggregate the information required on the basis of impairment methodology, an entity shall separately disclose the amounts based on the requirements in GAAP; and (6) Charge-offs during the period.

TABLE 5 TO § 3.63¹—CREDIT RISK: GENERAL DISCLOSURES—Continued

(f)	Amount of impaired loans and, if available, the amount of past due loans categorized by significant geographic areas including, if practical, the amounts of allowances related to each geographical area, ⁵ further categorized as required by GAAP.
(g)	Reconciliation of changes in ALLL. ⁵
(h)	Remaining contractual maturity delineation (for example, one year or less) of the whole portfolio, categorized by credit exposure.

¹ Table 5 does not cover equity exposures, which should be reported in Table 9.

² See, for example, ASC Topic 815–10 and 210, as they may be amended from time to time.

³ Geographical areas may consist of individual countries, groups of countries, or regions within countries. A national bank or Federal savings association might choose to define the geographical areas based on the way the national bank's or Federal savings association's portfolio is geographically managed. The criteria used to allocate the loans to geographical areas must be specified.

⁴ A national bank or Federal savings association is encouraged also to provide an analysis of the aging of past-due loans.

⁵ The portion of the general allowance that is not allocated to a geographical area should be disclosed separately.

⁶ The reconciliation should include the following: A description of the allowance; the opening balance of the allowance; charge-offs taken against the allowance during the period; amounts provided (or reversed) for estimated probable loan losses during the period; any other adjustments (for example, exchange rate differences, business combinations, acquisitions and disposals of subsidiaries), including transfers between allowances; and the closing balance of the allowance. Charge-offs and recoveries that have been recorded directly to the income statement should be disclosed separately.

TABLE 6 TO § 3.63—GENERAL DISCLOSURE FOR COUNTERPARTY CREDIT RISK-RELATED EXPOSURES

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to OTC derivatives, eligible margin loans, and repo-style transactions, including a discussion of: (1) The methodology used to assign credit limits for counterparty credit exposures; (2) Policies for securing collateral, valuing and managing collateral, and establishing credit reserves; (3) The primary types of collateral taken; and (4) The impact of the amount of collateral the national bank or Federal savings association would have to provide given a deterioration in the national bank's or Federal savings association's own creditworthiness.
Quantitative Disclosures	(b)	Gross positive fair value of contracts, collateral held (including type, for example, cash, government securities), and net unsecured credit exposure. ¹ A national bank or Federal savings association also must disclose the notional value of credit derivative hedges purchased for counterparty credit risk protection and the distribution of current credit exposure by exposure type. ²
	(c)	Notional amount of purchased and sold credit derivatives, segregated between use for the national bank's or Federal savings association's own credit portfolio and in its intermediation activities, including the distribution of the credit derivative products used, categorized further by protection bought and sold within each product group.

¹ Net unsecured credit exposure is the credit exposure after considering both the benefits from legally enforceable netting agreements and collateral arrangements without taking into account haircuts for price volatility, liquidity, etc.

² This may include interest rate derivative contracts, foreign exchange derivative contracts, equity derivative contracts, credit derivatives, commodity or other derivative contracts, repo-style transactions, and eligible margin loans.

TABLE 7 TO § 3.63—CREDIT RISK MITIGATION^{1 2}

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to credit risk mitigation, including: (1) Policies and processes for collateral valuation and management; (2) A description of the main types of collateral taken by the national bank or Federal savings association; (3) The main types of guarantors/credit derivative counterparties and their creditworthiness; and (4) Information about (market or credit) risk concentrations with respect to credit risk mitigation.
Quantitative Disclosures	(b)	For each separately disclosed credit risk portfolio, the total exposure that is covered by eligible financial collateral, and after the application of haircuts.
	(c)	For each separately disclosed portfolio, the total exposure that is covered by guarantees/credit derivatives and the risk-weighted asset amount associated with that exposure.

¹ At a minimum, a national bank or Federal savings association must provide the disclosures in Table 7 in relation to credit risk mitigation that has been recognized for the purposes of reducing capital requirements under this subpart. Where relevant, national banks or Federal savings associations are encouraged to give further information about mitigants that have not been recognized for that purpose.

² Credit derivatives that are treated, for the purposes of this subpart, as synthetic securitization exposures should be excluded from the credit risk mitigation disclosures and included within those relating to securitization (Table 8).

TABLE 8 TO § 3.63—SECURITIZATION

Qualitative Disclosures	(a)	<p>The general qualitative disclosure requirement with respect to a securitization (including synthetic securitizations), including a discussion of:</p> <ol style="list-style-type: none"> (1) The national bank's or Federal savings association's objectives for securitizing assets, including the extent to which these activities transfer credit risk of the underlying exposures away from the national bank or Federal savings association to other entities and including the type of risks assumed and retained with resecuritization activity;¹ (2) The nature of the risks (e.g. liquidity risk) inherent in the securitized assets; (3) The roles played by the national bank or Federal savings association in the securitization process² and an indication of the extent of the national bank's or Federal savings association's involvement in each of them; (4) The processes in place to monitor changes in the credit and market risk of securitization exposures including how those processes differ for resecuritization exposures; (5) The national bank's or Federal savings association's policy for mitigating the credit risk retained through securitization and resecuritization exposures; and (6) The risk-based capital approaches that the national bank or Federal savings association follows for its securitization exposures including the type of securitization exposure to which each approach applies.
	(b)	<p>A list of:</p> <ol style="list-style-type: none"> (1) The type of securitization SPEs that the national bank or Federal savings association, as sponsor, uses to securitize third-party exposures. The national bank or Federal savings association must indicate whether it has exposure to these SPEs, either on- or off-balance sheet; and (2) Affiliated entities: <ol style="list-style-type: none"> (i) That the national bank or Federal savings association manages or advises; and (ii) That invest either in the securitization exposures that the national bank or Federal savings association has securitized or in securitization SPEs that the national bank or Federal savings association sponsors.³
	(c)	<p>Summary of the national bank's or Federal savings association's accounting policies for securitization activities, including:</p> <ol style="list-style-type: none"> (1) Whether the transactions are treated as sales or financings; (2) Recognition of gain-on-sale; (3) Methods and key assumptions applied in valuing retained or purchased interests; (4) Changes in methods and key assumptions from the previous period for valuing retained interests and impact of the changes; (5) Treatment of synthetic securitizations; (6) How exposures intended to be securitized are valued and whether they are recorded under subpart D of this part; and (7) Policies for recognizing liabilities on the balance sheet for arrangements that could require the national bank or Federal savings association to provide financial support for securitized assets.
	(d)	An explanation of significant changes to any quantitative information since the last reporting period.
Quantitative Disclosures	(e)	The total outstanding exposures securitized by the national bank or Federal savings association in securitizations that meet the operational criteria provided in § 3.41 (categorized into traditional and synthetic securitizations), by exposure type, separately for securitizations of third-party exposures for which the bank acts only as sponsor. ⁴
	(f)	<p>For exposures securitized by the national bank or Federal savings association in securitizations that meet the operational criteria in § 3.41:</p> <ol style="list-style-type: none"> (1) Amount of securitized assets that are impaired/past due categorized by exposure type;⁵ and (2) Losses recognized by the national bank or Federal savings association during the current period categorized by exposure type.⁶
	(g)	The total amount of outstanding exposures intended to be securitized categorized by exposure type.
	(h)	<p>Aggregate amount of:</p> <ol style="list-style-type: none"> (1) On-balance sheet securitization exposures retained or purchased categorized by exposure type; and (2) Off-balance sheet securitization exposures categorized by exposure type.

TABLE 8 TO § 3.63—SECURITIZATION—Continued

(i)	(1) Aggregate amount of securitization exposures retained or purchased and the associated capital requirements for these exposures, categorized between securitization and resecuritization exposures, further categorized into a meaningful number of risk weight bands and by risk-based capital approach (e.g., SSFA); and (2) Exposures that have been deducted entirely from tier 1 capital, CEIOs deducted from total capital (as described in § 3.42(a)(1)), and other exposures deducted from total capital should be disclosed separately by exposure type.
(j)	Summary of current year's securitization activity, including the amount of exposures securitized (by exposure type), and recognized gain or loss on sale by exposure type.
(k)	Aggregate amount of resecuritization exposures retained or purchased categorized according to: (1) Exposures to which credit risk mitigation is applied and those not applied; and (2) Exposures to guarantors categorized according to guarantor creditworthiness categories or guarantor name.

¹The national bank or Federal savings association should describe the structure of resecuritizations in which it participates; this description should be provided for the main categories of resecuritization products in which the national bank or Federal savings association is active.

²For example, these roles may include originator, investor, servicer, provider of credit enhancement, sponsor, liquidity provider, or swap provider.

³Such affiliated entities may include, for example, money market funds, to be listed individually, and personal and private trusts, to be noted collectively.

⁴"Exposures securitized" include underlying exposures originated by the bank, whether generated by them or purchased, and recognized in the balance sheet, from third parties, and third-party exposures included in sponsored transactions. Securitization transactions (including underlying exposures originally on the bank's balance sheet and underlying exposures acquired by the bank from third-party entities) in which the originating bank does not retain any securitization exposure should be shown separately but need only be reported for the year of inception. Banks are required to disclose exposures regardless of whether there is a capital charge under this part.

⁵Include credit-related other than temporary impairment (OTTI).

⁶For example, charge-offs/allowances (if the assets remain on the bank's balance sheet) or credit-related OTTI of interest-only strips and other retained residual interests, as well as recognition of liabilities for probable future financial support required of the bank with respect to securitized assets.

TABLE 9 TO § 3.63—EQUITIES NOT SUBJECT TO SUBPART F OF THIS PART

Qualitative Disclosures	(a)	The general qualitative disclosure requirement with respect to equity risk for equities not subject to subpart F of this part, including: (1) Differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons; and (2) Discussion of important policies covering the valuation of and accounting for equity holdings not subject to subpart F of this part. This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices.
Quantitative Disclosures	(b)	Value disclosed on the balance sheet of investments, as well as the fair value of those investments; for securities that are publicly traded, a comparison to publicly-quoted share values where the share price is materially different from fair value.
	(c)	The types and nature of investments, including the amount that is: (1) Publicly traded; and (2) Non publicly traded.
	(d)	The cumulative realized gains (losses) arising from sales and liquidations in the reporting period.
	(e)	(1) Total unrealized gains (losses). ¹ (2) Total latent revaluation gains (losses). ² (3) Any amounts of the above included in tier 1 or tier 2 capital.
	(f)	Capital requirements categorized by appropriate equity groupings, consistent with the national bank's or Federal savings association's methodology, as well as the aggregate amounts and the type of equity investments subject to any supervisory transition regarding regulatory capital requirements.

¹ Unrealized gains (losses) recognized on the balance sheet but not through earnings.

² Unrealized gains (losses) not recognized either on the balance sheet or through earnings.

TABLE 10 TO § 3.63—INTEREST RATE RISK FOR NON-TRADING ACTIVITIES

Qualitative disclosures	(a)	The general qualitative disclosure requirement, including the nature of interest rate risk for non-trading activities and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of measurement of interest rate risk for non-trading activities.
Quantitative disclosures	(b)	The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring interest rate risk for non-trading activities, categorized by currency (as appropriate).

§§ 3.64–3.99 [Reserved]

Subpart E—Risk-Weighted Assets— Internal Ratings-Based and Advanced Measurement Ap- proaches

SOURCE: 78 FR 62157, 62273, Oct. 11, 2013, unless otherwise noted.

§ 3.100 Purpose, applicability, and principle of conservatism.

(a) *Purpose.* This subpart E establishes:

(1) Minimum qualifying criteria for national banks or Federal savings associations using institution-specific internal risk measurement and management processes for calculating risk-based capital requirements; and

(2) Methodologies for such national banks or Federal savings associations to calculate their total risk-weighted assets.

(b) *Applicability.* (1) This subpart applies to a national bank or Federal savings association that:

(i) Has consolidated total assets, as reported on its most recent year-end Call Report equal to \$250 billion or more;

(ii) Has consolidated total on-balance sheet foreign exposure on its most recent year-end Call Report equal to \$10 billion or more (where total on-balance sheet foreign exposure equals total cross-border claims less claims with a head office or guarantor located in another country plus redistributed guaranteed amounts to the country of head office or guarantor plus local country claims on local residents plus revaluation gains on foreign exchange and derivative products, calculated in accordance with the Federal Financial Insti-

tutions Examination Council (FFIEC) 009 Country Exposure Report);

(iii) Is a subsidiary of a depository institution that uses the advanced approaches pursuant to subpart E of 12 CFR part 3 (OCC), 12 CFR part 217 (Board), or 12 CFR part 325 (FDIC) to calculate its total risk-weighted assets;

(iv) Is a subsidiary of a bank holding company or savings and loan holding company that uses the advanced approaches pursuant to 12 CFR part 217 to calculate its total risk-weighted assets; or

(v) Elects to use this subpart to calculate its total risk-weighted assets.

(2) A national bank or Federal savings association that is subject to this subpart shall remain subject to this subpart unless the OCC determines in writing that application of this subpart is not appropriate in light of the national bank's or Federal savings association's asset size, level of complexity, risk profile, or scope of operations. In making a determination under this paragraph (b), the OCC will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 3.404.

(3) A market risk national bank or Federal savings association must exclude from its calculation of risk-weighted assets under this subpart the risk-weighted asset amounts of all covered positions, as defined in subpart F of this part (except foreign exchange positions that are not trading positions, over-the-counter derivative positions, cleared transactions, and unsettled transactions).

(c) *Principle of conservatism.* Notwithstanding the requirements of this subpart, a national bank or Federal savings association may choose not to
